What makes a good relationship?

1. **RESPECT**
   A friend will never push you to do something you’re not comfortable doing.

2. **TRUST**
   A friend should trust you to be around other friends without feeling jealous.

4. **EQUALITY**
   If you’re being controlled or you’re afraid of your friend/partner, something is wrong.

3. **SUPPORT**
   A friend should be happy for you when good things happen and sad for you when bad things happen.

5. **IDENTITY**
   Being with someone shouldn’t feel you’re losing your own identity.

6. **CONSENT**
   No means no, even if you usually say yes, even if you said yes before but you’ve changed your mind.
